DeviceaccessD.   SanPolicy Answer: DExplanation:
https://technet.microsoft.com/en-us/library/jj592680(v=ws.11).aspx QUESTION 174Note: This question is part of a series of questions that use the same or similar answer choices. An answer choice may be correct for more than one question in the series. Each question is independent of the other questions in this series. Information and details in a question apply only to that question. On the corporate network, you have an Active Directory user account. The domain contains a sync share named Share1.You have a personal computer that runs Windows 10. The computer is a member of a workgroup.You need to access the files in Share1.Which Control Panel application should you use? A.   Phone and ModemB.   Network and Sharing CenterC.   RemoteApp and Desktop ConnectionsD.   Power OptionsE.   SystemF.   Sync CenterG.   Credential ManagerH.   Work Folders Answer: FExplanation:
http://www.thewindowsclub.com/windows-10-sync-center QUESTION 175Note: This question is part of a series of questions that use the same or similar answer choices. An answer choice may be correct for more than one question in the series. Each question is independent of the other questions in this series. Information and details in a question apply only to that question.Your network contains a shared folder that is located at \\server1\data. On a computer, you make the shared folder available for offline use. You need to ensure that you have the most up-to-date version of the folder cached.Which Control Panel application should you use? A.   Credential ManagerB.   Phone and ModemC.   Work FoldersD.   SystemE.   RemoteApp and Desktop ConnectionsF.   Network and Sharing CenterG.   Sync CenterH.   Power Options Answer: C QUESTION 176Note: This question is part of a series of questions that use the same or similar answer choices. An answer choice may be correct for more than one question in the series. Each question is independent of the other questions in this series. Information and details in a question apply only to that question.You make a folder available for offline use.Currently, the folder is synchronizing and will take approximately 15 minutes

to complete. You need to ensure that the files continue to synchronize when you close the lid of the computer.Which Control Panel application should you use? A.   SystemB.   RemoteApp and Desktop ConnectionsC.   Work FoldersD.   Power OptionsE.   Network and Sharing CenterF.   Credential ManagerG.   Phone and ModemH.   Sync Center Answer: D QUESTION 177You administer Windows 8.1 client computers in your company network.A computer that is used by non-administrator users has a directory named C:Folder1.A shared collection of Microsoft Excel files is stored in the C:Folder directory, with non-administrator users being granted modify permissions to the directory.You discover that some files have been incorrectly modified by a user.You need to determine which user made changes to the directory's folder's files.Which two actions should you perform? (Each correct answer presents part of the solution. Choose two.) A.   Set local policy: Computer ConfigurationWindows SettingsSecurity SettingsLocal PoliciesAudit Policy Audit object access to Failure.B.   From the Auditing Entry for Folder1, set the Principal to Everyone, and then set the Type to Failure for the Modify permission.C.   From the Auditing Entry for Folder1, set the Principal to Guests, and then set the Type to Success for the Modify permission.D.   Set local policy: Computer ConfigurationWindows SettingsSecurity SettingsLocal PoliciesAudit Policy Audit object access to Success.E.   From the Auditing Entry for Folder1, set the Principal to Guests, and then set the Type to Failure for the Modify permission.F.   From the Auditing Entry for Folder1, set the Principal to Everyone, and then set the Type to Success for the Modify permission. Answer: DFExplanation:We must audit for success, as we want to know which user has modified the file.

http://technet.microsoft.com/en-us/library/cc776774%28v=ws.10%29.aspx QUESTION 178A company has client computers that run Windows 10 Enterprise. Finance department employees store files in the C: Finance directory. File History on.A Finance department employee attempts to restore a file to a previous version by using File History. The file is not available to restore.You need to establish why the file history is not available and ensure that it is available in the future.Which two actions should you perform? (Each correct answer presents part of the solution. Choose two.) A.   Set the Protection Settings for drive C to On.B.   Restore the data files from the PreviousC.   Versions tab located in the folder properties.D.   Review the File History backup log.E.   Move the file into a library. Answer: DEExplanation:File History only backs up data in libraries, favorites, desktop, and contacts and must use a non-system drive for backup. Since File History is already on we can assume the drive doesn't need to be changed. So we should review the log and move the file to a library. QUESTION 179You administer Windows 10 Enterprise client computers in your company network. You need to configure a backup and recovery solution that meets the following requirements: - Recovers the system if it doesn't start.- Recovers the system if the hard drive fails. Which two actions should you perform? (Each correct answer presents part of the solution. Choose two.) A.   Turn on File History.B.   Create a storage space.C.   Configure system protection.D.   Create a system repair disk.E.   Create a system image backup. Answer: DE QUESTION 180A company has 100 Windows 10 Enterprise client computers. Client computers are connected to a corporate private network. You deploy a Remote Desktop Gateway, DirectAccess, and a VPN server at the corporate main office.Users are currently unable to connect from their home computers to their work computers by using Remote Desktop.You need to ensure that users can remotely connect to their office computers by using Remote Desktop. Users must not be able to access any other corporate network resource from their home computers.What should you do? A.   Configure a Virtual Private Network connection.B.   Configure the local resource settings of the Remote Desktop connection.C.   Configure the Remote Desktop Gateway IP address in the advanced Remote Desktop Connection settings on each client.D.   Configure a DirectAccess connection. Answer: C We highly recommend our 70-697 dumps. Comparing with others', Lead2pass is the most credible and authentic source of information on 70-697 exam and we strive to keep our 70-697 dumps up-to-date and reliable on a consistent basis. Our exam preparation material is rich in variety. We offer 70-697 PDF format and 70-697 practice test with free VCE player. That's the reason why many candidates choose Lead2pass. 70-697 new questions on Google Drive: https://drive.google.com/open?id=0B3Syig5i8gpDNV91YXU2blBtY0U 2017 Microsoft 70-697 exam dumps (All 199 Q&As) from Lead2pass: http://www.lead2pass.com/70-697.html [100% Exam Pass Guaranteed]
