QUESTION 21Drag and Drop QuestionYou need to complete the configuration of the Search2016 farm.How should you complete the Windows PowerShell command? To answer, drag the appropriate Windows PowerShell segment to the correct location or locations. Each Windows PowerShell segment may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Answer

QUESTION 22In this section, you will see one or more sets of questions with the same scenario and problem. Each question presents a unique solution to the problem, and you must determine whether the solution meets the stated goals. Any of the solutions might solve the problem. It is also possible that none of the solutions solve the problem.Once you answer a question in this section, you will NOT be able to return to it. As a result these questions will not appear in the review screen.Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution. Determine whether the solution meets the stated goals. You need to display the values for the Document Status and Department properties. You install a language pack. Does the solution meet the goal? A.   YesB.   No Answer: AExplanation:With language pack installation, SharePoint gets Multilingual User Interface which allows users to set the site's language based on their preference and that's the requirement. So the answer should be Yes. QUESTION 23In this section, you will see one or more sets of questions with the same scenario and problem. Each question presents a unique solution to the problem, and you must determine whether the solution meets the stated goals. Any of the solutions might solve the problem. It is also possible that none of the solutions solve the problem.Once you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution. Determine whether the solution meets the stated goals. You need to display the values for the Document Status and Department properties.You create a term set and Managed Metadata column.Does the solution meet the goal? A.   YesB.   No Answer: AExplanation:The requirement is to change the values of metadata field settings from a single location and changes to the settings should be applied to all the site collections and existing documents. So Term Set and Managed Metadata column is the preferred way to implement the Document Status and Department properties. QUESTION 24Once you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution. Determine whether the solution meets the stated goals. You need to display the values for the Document Status and Department properties.You

configure variations on the site.Does the solution meet the goal? A.   YesB.   No Answer: AExplanation:With language pack installation, SharePoint gets Multilingual User Interface which allows users to set the site's language based on their preference and that's the requirement. So the answer should be Yes. QUESTION 25You need to configure SharePoint to support the required common document properties.Which two actions should you perform?
